

AORN LEARNING CENTER SYSTEM REQUIREMENTS

Below are the AORN Learning Center (ALC) System Requirements that you will need to access the online courses. If you are accessing the program through your work computer, please contact your IT Department to confirm your system meets the following requirements.

OPERATING SYSTEMS AND DEVICES

We recommend the most recent version of your computer's operating system, such as:

- Windows 10 or later
- macOS 10.15 or later

BROWSERS

The most recent version of Google Chrome, Firefox, Safari, or Microsoft Edge
Internet Explorer: Microsoft will only continue supporting IE 11 moving forward. Please do not use IE 10 or below, or the courses will not work properly. Microsoft suggests upgrading to Edge rather than using Internet Explorer.

VIDEO

Products listed as multimedia will use HTML5, the same player used by YouTube and most major websites.

WEBINARS

Our system launches Zoom, a 3rd party host, for live online webinars.

For the best experience using our platform we recommend a broadband network connection with a minimum download speed of 10 mbps. For the best streaming experience, close all other tabs, browsers, windows, or programs. Use an ethernet cord instead of WiFi whenever possible.
